

# PC 12C MIDI 90MM PRO

## The star of the Midi launchers

It was again LAPORTE®, always ready to innovate to satisfy the needs of shooters, who invented the 90mm clay target to give trap shooters the possibility to train on faster targets. Over time, once again, sporting and compak shooters finally adopted this target. Thus, 60, 70 or 90mm allow the clay shooting enthusiasts to simulate the flight conditions of different types of birds as closely as possible. The PC12C is still the ideal launcher for all these ranges.
