

PC 12C MINI 60MM PRO

Throwing the smallest targets

When Pierre Laporte, the father of the current CEO, Jean-Michel, invented the first small targets, he intended them for training Olympic skeet shooters. It is obvious that the difficulty increases as the size of the target decreases. But very quickly, hunters adopted these small targets, which perfectly simulate small birds or even big insect. The Midis and Minis, because of their reduced size and weight, are launched with a higher speed than the classic targets. The PC12C have therefore adapted to these reduced dimensions while retaining the characteristics of the classic models.

	Pro550	Reverse	Pro700	Reverse
Capacity (Clays)	550	550	700	700
Targets (Diam)	60mm	60mm	60mm	60mm
Tilting (R/L)	35°	35°	35°	35°
Angle backward	65°	65°	65°	65°
