

PC 12C MINI 70MM PRO

A powerful high-speed target launcher

It was in 1968 that LAPORTE® invented the 70mm target for the Skeet discipline. Indeed, its high speed at the start offers the shooter an excellent training mode. From then on, small targets being appreciated by sporting and compak shooters, the PC12C Super Midi, 550 or 700 clays, is designed to perfectly throw these targets according to the same trajectories as a classic course machine.
