

PCHLB 12C

Horizontal & Vertical movement

The precision of this trap is unique. With its ultra-precise range and legendary reliability, the PCH-LB 12C is the best performing launcher in its class. Ideal for practicing your turns and practicing different trajectories. The selection of the device's angles (horizontal and vertical) can be controlled remotely by a radio transmitter supplied as standard. The throwing arm has a lifetime warranty. A timer is also available.
