

SKEET 8C

The reference throwers for the Olympic disciplines

The result of many years of experience, 9 Olympic selections and numerous other competitions requiring the best in the industry, Laporte TRAP & SKEET launchers are a guarantee of quality and peace of mind. Equipped with the famous Laporte patented TURBO system, shooters' expectations are always met. Smooth trajectories and of course extreme accuracy are always guaranteed. The 12V power supply protects the technicians against any incident and allows optimal operation without any risk of electrical fluctuations of the mains or power cut. This means that the triggering is always 100% effective. High Capacity magazine, unparalleled accuracy and extremely low No-Bird rate make Laporte Skeet Throwers the favourite of shooters and competition organisers.
